Article 11

Scope

The provisions of this Chapter shall apply to products of the territory of a Party.

Article 12

Prohibition of quantitative restrictions

1. All import or export prohibitions or restrictions in trade between the Community and Mexico, other than customs duties and taxes, whether made effective through quotas, import or export licenses or other measures, shall be eliminated upon the entry into force of this Decision. No new such measures shall be introduced.
2. Paragraph 1 shall not apply to measures set out in Annex IV.

Article 13

National treatment on internal taxation and regulation

1. The imported products of the territory of the other Party shall not be subject, either directly or indirectly, to internal taxes or other internal charges of any kind in excess of those applied, directly or indirectly, to like domestic products. Moreover, the Parties shall not otherwise apply internal taxes or other internal charges so as to afford protection to domestic production.²
2. The imported products of the territory of the other Party shall be accorded treatment no less favourable than that accorded to like domestic products in respect of all laws, regulations and requirements affecting their internal sale, offering for sale, purchase, transportation, distribution or use.
3. The provisions of this Article shall not prevent the payment of subsidies exclusively to domestic producers, including payments to domestic producers derived from the proceeds of internal taxes or charges applied consistently with the provisions of this Article and subsidies effected through governmental purchases of domestic products.
4. The provisions of this Article shall not apply to laws, regulations, procedures or practices governing public procurement, which shall be subject exclusively to the provisions of Title III.
5. Paragraphs 1 and 2 shall not apply to the measures set out in Annex V until the date mentioned in that Annex.

² A tax conforming to the requirements of the first sentence shall be considered inconsistent with the provisions of the second sentence only in cases where competition is involved between, on the one hand, a taxed product and, on the other hand, a directly competitive or substitutable product which is not similarly taxed.

*Article 14*Antidumping and countervailing measures

The Community and Mexico confirm their rights and obligations arising from the WTO Agreement on Implementation of Article VI of the General Agreement on Tariffs and Trade 1994 and from the WTO Agreement on Subsidies and Countervailing Measures.

*Article 15*Safeguard clause

1. Where any product of one Party is being imported into the territory of the other Party in such increased quantities and under such conditions as to cause or threaten to cause:

- (a) serious injury to the domestic industry of like or directly competitive products in the territory of the importing Party; or
- (b) serious disturbances in any sector of the economy or difficulties which could bring about serious deterioration in the economic situation of a region of the importing Party,

the importing Party may take appropriate measures under the conditions and in accordance with the procedures laid down in this Article.

2. Safeguard measures shall not exceed what is necessary to remedy the difficulties which have arisen and should normally consist of the suspension of the further reduction of any applicable rate of duty provided for under this Decision for the product concerned or the increase of the rate of duty for that product.

3. Such measures shall contain clear elements progressively leading to their elimination at the end of the set period, at the latest. Measures shall not be taken for a period exceeding one year. In very exceptional circumstances, measures may be taken up to a total maximum period of three years. No safeguard measure shall be applied to the import of a product which has previously been subject to such a measure for a period of, at least, three years since the expiry of the measure.

4. The Party intending to take safeguard measures under this Article shall offer the other Party compensation in the form of substantially equivalent trade liberalisation in relation to the imports from the latter. The offer of liberalisation shall normally consist of concessions having substantially equivalent trade effects or concessions substantially equivalent to the value of the additional duties expected to result from the safeguard measure.

5. The offer shall be made prior to the adoption of the safeguard measure and simultaneously with the supply of information and referral to the Joint Committee, as provided for in this Article. Should the offer not be considered satisfactory by the Party against whose product the safeguard measure is intended to be taken, both Parties may agree, in the consultations referred to in this Article, on other means of trade compensation.

6. If the Parties concerned are unable to agree on compensation, the Party against whose product the safeguard measure is taken may take compensatory tariff action having trade effects substantially equivalent to the safeguard measure taken under this Article. The Party taking compensatory tariff action shall apply it, as a maximum, for the period necessary to achieve equivalent trade effects.

7. In the cases specified in this Article, before taking the measures provided for therein or, in the cases to which paragraph 8(b) of this Article applies, as soon as possible, the Community or Mexico, as the case may be, shall supply the Joint Committee with all relevant information, with a view to seeking a solution acceptable to the two Parties.

8. For the implementation of the above paragraphs the following provisions shall apply:

- (a) The difficulties arising from the situation referred to in this Article shall be referred for examination to the Joint Committee, which may take any decisions needed to put an end to such difficulties.

If the Joint Committee or the exporting Party has not taken a decision putting an end to the difficulties or no other satisfactory solution has been reached within 30 days of the matter being referred to the Joint Committee, the importing Party may adopt the appropriate measures to remedy the problem, and, in the absence of mutually agreed compensation, the Party against whose product the measure is taken may take compensatory tariff action in accordance with this Article. Such compensatory tariff action shall be immediately notified to the Joint Committee. In the selection of safeguard measures and compensatory tariff action, priority must be given to those which least disturb the functioning of the arrangements established in this Decision.

- (b) Where exceptional and critical circumstances requiring immediate action make prior information or examination, as the case may be, impossible, the Party concerned may, in the situations specified in this Article, apply forthwith precautionary measures necessary to deal with the situation and shall inform the other Party immediately thereof.
- (c) The safeguard measures shall be notified immediately to the Joint Committee and shall be the subject of periodic consultations within that body, particularly with a view to establishing a timetable for their abolition as soon as circumstances permit.

9. In the event of the Community or Mexico subjecting imports of products liable to give rise to the difficulties referred to in this Article to an administrative procedure having at its purpose the rapid provision of information on the trend of trade flows, it shall inform the other Party.

Article 16

Shortage clause

1. Where compliance with the provisions of Chapter I or Article 12 leads to:

- (a) a critical shortage, or threat thereof, of foodstuffs or other products essential to the exporting Party; or
- (b) a shortage of essential quantities of domestic materials to a domestic processing industry during periods when the domestic price of such materials is held below the world price as part of a governmental stabilisation plan; or
- (c) re-export to a third country of a product against which the exporting Party maintains export customs duties or export prohibitions or restrictions,

and where the situations referred to above give rise, or are likely to give rise to major difficulties for the exporting Party, that Party may adopt export restrictions or export customs duties.

2. In the selection of measures, priority must be given to those which least disturb the functioning of the arrangements in this Decision. Such measures shall not be applied in a manner which would constitute a means of arbitrary or unjustifiable discrimination where the same conditions prevail, or a disguised restriction on trade and shall be eliminated when the conditions no longer justify their maintenance. In addition, the measures which may be adopted pursuant to paragraph 1(b) of this Article shall not operate to increase the exports of or the protection afforded to the domestic processing industry concerned, and shall not depart from the provisions of this Decision relating to non-discrimination.

3. Before taking the measures provided for in paragraph 1 of this Article or, as soon as possible in cases to which paragraph 4 of this Article applies the Community or Mexico, as the case may be, shall supply the Joint Committee with all relevant information, with a view to seeking a solution acceptable to the two Parties. The Parties within the Joint Committee may agree on any means needed to put an end to the difficulties. If no agreement is reached within 30 days of the matter being referred to the Joint Committee, the exporting Party may apply measures under this Article on the exportation of the product concerned.

4. Where exceptional and critical circumstances requiring immediate action make prior information or examination, as the case may be, impossible, the Community or Mexico, whichever is concerned, may apply forthwith the precautionary measures necessary to deal with the situation and shall inform the other Party immediately thereof.

5. Any measures applied pursuant to this Article shall be immediately notified to the Joint Committee and shall be the subject of periodic consultations within that body, particularly with a view to establishing a timetable for their elimination as soon as circumstances permit.

Article 17

2. Paragraph 1 is subject to the provisions set out in Annex XI.
3. Subject to paragraph 4, where a contract to be awarded by an entity is not covered by this Title, this Title shall not be construed to cover any good or service component of that contract.
4. No Party may prepare, design or otherwise structure any procurement contract in order to avoid the obligations of this Title.
5. Procurement includes procurement by such methods as purchase, lease or rental, with or without an option to buy.
6. Procurement does not include:
 - (a) non-contractual agreements or any form of government assistance, including cooperative agreements, grants, loans, equity infusions, guarantees, fiscal incentives, and government provision of goods and services to persons or state, provincial and regional governments; and

2. With respect to all laws, regulations, procedures and practices regarding government procurement covered by this Title, each Party shall ensure:
 - (a) that its entities do not treat a locally-established supplier less favourably than another locally-established supplier on the basis of the degree of foreign affiliation to, or ownership by, a person of the other Party; and,

³ The threshold value shall be calculated and adjusted according to the provisions set out in Annex X.

*Article 27*Rules of origin

1. No Party may apply rules of origin to goods imported from the other Party for purposes of government procurement covered by this Title that are different from, or inconsistent with, the rules of origin which that Party applies in the normal course of trade.
2. A Party may deny the benefits of this Title to a service supplier of the other Party, subject to prior notification and consultation, where the Party establishes that the service is being provided by an enterprise that is owned or controlled by persons of a non-Party and that has no substantial business activities in the territory of either Party.

*Article 28*Prohibition of offsets

Each Party shall ensure that its entities do not, in the qualification and selection of suppliers, goods or services, in the evaluation of bids or the award of contracts, consider, seek or impose offsets. For purposes of this Article, offsets means conditions imposed or considered by an entity prior to, or in the course of, its procurement process that encourage local development or improve its Party's balance-of-payments accounts, by means of requirements of local content, licensing of technology, investment, counter-trade or similar requirements.

*Article 29*Procurement procedures and other provisions

1. Mexico shall apply the rules and procedures specified in Part A of Annex XII and the Community shall apply the rules and procedures specified in Part B of Annex XII Both sets of rules and procedures are considered to provide equivalent treatment.
2. The rules and procedures specified in Annex XII may only be modified by the Party concerned in order to reflect amendments to the corresponding provisions of the North American Free Trade Agreement (hereinafter NAFTA) and the WTO Agreement on Government Procurement (hereinafter GPA), respectively, provided that the rules and procedures applied by that Party, as modified, continue to afford equivalent treatment.
3. If a Party modifies its respective rules and procedures contained in Annex XII, pursuant to paragraph 2, it shall previously consult with the other Party and shall bear the burden of proving that the rules and procedures, as modified, continue to afford equivalent treatment.

6. No entity of a Party may make it a condition for the qualification of suppliers and for the awarding of a contract that the supplier has previously been awarded one or more contracts by an entity of that Party or that the supplier has prior work experience in the territory of that Party.

Article 30

Bid challenge

1. In the event of a complaint by a supplier that there has been a breach of this Title in the context of a procurement, each Party shall encourage the supplier to seek resolution of its complaint in consultation with the procuring entity. 2. Each Party shall provide non-discriminatory, timely, transparent and effective procedures enabling suppliers to challenge alleged breaches of this Title arising in the context of procurements in which they have, or have had, an interest.
3. Each Party shall provide its challenge procedures in writing and make them generally available.

6. A Party may require under its legislation that a bid challenge be initiated only after the notice of procurement has been published or, where a notice is not published, after tender documentation has been made available. Where a Party imposes such a requirement, the 10-day period described in paragraph 5 shall begin no earlier than the date that the notice is published or the tender documentation is made available. Nothing in this provision precludes the right of interested suppliers to judicial review.
7. Challenges shall be heard by an impartial and independent reviewing authority with no interest in the outcome of the procurement and the members of which are secure from external influence during the term of appointment. A reviewing authority which is not a court shall either be subject to judicial review or shall have procedures which provide that:

 - (b) participants can be represented and accompanied;
 - (c) participants shall have access to all proceedings;
 - (d) proceedings can take place in public;
 - (e) opinions or decisions are given in writing with a statement describing the basis for the opinions or decisions;

8. Challenge procedures shall provide for:
- (a) rapid interim measures to correct breaches of this Title and to preserve commercial opportunities. Such action may result in suspension of the procurement process. However, procedures may provide that overriding adverse consequences for the interests concerned, including the public interest, may be taken into account in deciding whether such measures should be applied. In such circumstances, just cause for not acting shall be provided in writing; and
 - (b) where appropriate, correction of the breach of this Title or compensation for the loss or damages suffered, which may be limited to costs for tender preparation or protest.
9. With a view to the preservation of the commercial and other interests involved, the challenge procedure shall normally be completed in a timely fashion.

To this end, the Party of the procuring entity shall provide information on the characteristics and relative advantages of the winning tender and the contract price. Where release of this information would prejudice competition in future tenders, the information shall not be released by the requesting Party, except after consultation with, and agreement of, the Party that provided the information.
4. On request, each Party shall provide to the other Party information available to that Party and its entities concerning covered procurement of its entities and the individual contracts awarded by its entities.
5. No Party may disclose confidential information the disclosure of which would prejudice the legitimate commercial interests of a particular person or might prejudice fair competition between suppliers, without the formal authorisation of the person that provided the information to that Party.

the Party may have recourse to dispute settlement procedures under Title VI.

6. Where a Party considers that a reorganisation of procurement entities does not meet the requirements of paragraph 4 and should be compensated, it may have recourse to dispute settlement procedures under Title VI, provided that it has objected to such reorganisation within 30 days from the date of the notification.

5. The Party concerned shall notify to the other Party the measures adopted in order to implement the final report before the expiry of the reasonable period of time determined in accordance with paragraph 4. Upon that notification, any of the Parties may request the original arbitration panel to rule on the conformity of those measures with the final report. The ruling of the arbitration panel shall be given within 60 days from that request.
6. If the Party concerned fails to notify the implementing measures before the expiry of the reasonable period of time determined in accordance with paragraph 4, or if the arbitration panel rules that the implementing measures notified by the Party concerned are inconsistent with the final report, such Party shall, if so requested by the complaining Party, enter into consultations with a view to agree on a mutually acceptable compensation. If no such agreement has been reached within 20 days from the request, the complaining Party shall be entitled to suspend only the application of benefits granted under the covered legal instruments equivalent to those affected by the measure found to violate the covered legal instruments.
7. In considering what benefits to suspend, a complaining Party should first seek to suspend benefits in the same sector or sectors as that affected by the measure that the panel has found to violate the covered legal instruments. A complaining Party that considers it is not practicable or effective to suspend benefits in the same sector or sectors may suspend benefits in other sectors.
8. The complaining Party shall notify the other Party of the benefits which it intends to suspend no later than 60 days before the date on which the suspension is due to take effect. Within 15 days from that notification, any of the Parties may request the original arbitration panel to rule on whether the benefits which the complaining Party intends to suspend are equivalent to those affected by the measure found to violate the covered legal instruments, and whether the proposed suspension is in accordance with paragraphs 6 and 7. The ruling of the arbitration panel shall be given within 45 days from that request. Benefits shall not be suspended until the arbitration Panel has issued its ruling.
9. The suspension of benefits shall be temporary and shall only be applied by the complaining Party until the measure found to violate the covered legal instruments has been withdrawn or amended so as to bring it into conformity with the covered legal instruments, or the Parties have reached agreement on a resolution of the dispute.

10. At the request of any of the Parties, the original arbitration panel shall rule on the conformity with the final report of any implementing measures adopted after the suspension of benefits and, in light of such ruling, whether the suspension of benefits should be terminated or modified. The ruling of the arbitration panel shall be given within 30 days from the date of that request.

11. The rulings provided for in paragraphs 4, 5, 8 and 10 shall be binding.

Article 47

General provisions
